FINTECH
FESTIVAL™

The Singapore FinTech Festival Theme

The Singapore FinTech Festival 2023 will focus on the growth and **adoption of AI** and how this technology can potentially be used in financial services.

Examining how technologies such as **AI and Web3**, and **digital public goods**, can help to accelerate:

- the transition to a low-carbon future
- the re-imagining of the financial system architecture to better address the needs of the underserved
- the securing of the digital economy against modern climate, technology and cyber risks

"Like the festival of light that calls us to spread light over darkness, hope and happiness over despair, this festival calls us to come together in pursuit of a better future for Humanity."
